To M. Visveswaraya Esq.,

Dewan of Mysore,

Respected Sir,

It is intended that Jagadguru of Sringeri has arranged to celebrate the Kumbhabhishekam ceremony of Sri Saradamba and also the Kumbhabhishekam ceremony of the idol of Sri Jagadguru in Sringeri on the 18th May, 1916. On account of the great reverence in which the Goddess and the mutt are held by the public, it is expected that more than ten thousand persons will gather at Sringeri during the ceremony. It is

His Highness the Maharaja of Mysore will also grace the occasion with his presence. It is accordingly necessary that Satisfactory Sanitary, Hospital and Police arrangements have to be made, as the people who come to Sringeri are likely to stay there also for a number of days. When a Similar Kumbha-Abhishekam ceremony was celebrated at Kalati in 1910, the Travancore Government had made all the Sanitary arrangements and provided a Hospital and the necessary Police at their own expense. I request that Government will kindly direct that a staff of 25 Scavengers with an overseer be deputed to look after the Sanitation of the place, and that a Sufficient ~~staff~~ Police be also deputed to Sringeri to

Police the number of sheds to which the Mutt authorities have specially built for the occasion As the pilgrims are likely to arrive at Sungei from the beginning of May, the arrangements are necessary from the beginning of May till the end of the month. There is a small hospital at Sungei, but as the staff may not be able to cope with the additional work due to the influx of the population, an additional dispensary temporarily for a month is absolutely necessary and may kindly be sanctioned.

As there is no railway communication to Sungei people have to travel nearly 60 miles from Tanikere to reach Sungei. The roads now are not in very good condition, and I request that the Public works Department may kindly be asked to improve the condition of the roads for the convenience of the public who have to come to Sungei.

In this connection, I submit a

a few Zamindars of rank and some well known gentlemen from British India will also attend the function. As there are no conveniences either for travelling or for their halt on the way from Tanjore to Trichy, and as on account of their position and status, special consideration is necessary, I specially request that a motor car and motor bus may kindly be placed at the disposal of the Mutt for 20 days from the 10th of May. The Mutt is situated far away from the Railway station, and without the kind help and sympathetic cooperation of Government, it will not be possible for the Mutt to undertake the huge function and complete it with success. I therefore request that necessary instructions may also be given to the Deputy Commissioner of Madura, to render such assistance as may be required by the Mutt on this occasion,

I beg to remain,
Respectful Sir,

Your most obedient servant

My dear Sir,

In connection with the Kumbhabhishekam ceremony which is to take place at Sringeri on the 18th May, the Matt authorities are anxious to keep ready for any emergency a fire engine and a pumping engine as they are afraid of accidents in this dry weather to the hundreds of sheds that have been put up to accommodate visitors. I have been desired to enquire whether the engines of the kind required are available at the Public Works Department work-shops and whether they can be spared for about a month commencing from 1st May.

A line in reply at your early convenience will oblige.

Sir,

With reference to Government Order No. 2434-41-M.F 564-15-2, dated 10th April 1916, I have the honor to report as follows regarding the arrangements made by me for medical relief and sanitation at Sringeri during the Jatra there in connection with the ensuing Kumbhabhishekam ceremony.

2. The District Medical Officer and the Agent of the Matha have been requested to have two hospital sheds put up, where a temporary dispensary will be opened for the use of visitors to the Jatra. A Sub Assistant Surgeon with Malnad experience has been ordered to be on temporary duty on the occasion. The annual stock of medicines to the Local Fund Dispensary was despatched to Sringeri, so recently as the 13th January 1916 and is expected to meet the requirements of the Jatra. A special supply of medicines in the form of tablets is also being sent to the District Medical Officer, for use on the occasion.

3. As regards sanitation and conservancy, the District Sanitary Officer is already at Sringeri to make the necessary arrangements. The Deputy Commissioner having reported, after a personal visit to Sringeri, that a staff of 35 to 40 men and two Overseers will be necessary to

look

look to the conservancy of the place adequately, and that he would spare only 10 men and an Assistant Sanitary Inspector from his District Staff, the Honorary President, Bangalore City, Municipal Council was requested (and that officer has kindly arranged) to send a batch of 25 scavengers under an Overseer with order to report themselves to the District Sanitary Officer at Sringeri on the 1st May 1916.

4. The above arrangements are expected to adequately meet the medical and Sanitary requirements of the place during the occasion of the Jatra.

5. I have also called for a complete report as to the Sanitary arrangements expected to be ready on the 1st May 1916 and on receipt of the same, I shall issue any further instructions, that may be found necessary.

I have the honor to be,

Sir,

Dear Mr. Aravamudaiengar,

In continuation of my D.O.No.306 of the 1st instant, I enclose for information copy of the report received from the Sanitary Engineer in regard to the measures to be adopted for the fire protection of the camps at Srinagari. The proposal appears to be the best to be adopted under the circumstances and with the short time available and I would suggest that the Deputy Commissioner may be requested to take steps accordingly. If you approve, I shall order for the Chemical Fire extinguishers from Bombay by wire

Yours sincerely,

Krishna Iyengar

Letter No.4444 dated the 3rd May 1916 from the Sanitary Engineer, Water Supply Division, Bangalore, to the Chief Engineer of Mysore.

- - - -

Re. Fire protection at the Temporary camps at Sringeri.- In reference to the above and in accordance with the instructions contained in Chief Engineer's D.O. letter dated 24th April 1916, I proceeded to Sringeri on the 29th and 30th idem.

I inspected the temporary camps erected in connection with the coming Kumbhabhisheka Festival.

There are two camps, one on the right bank and one on the left bank of the river.

The huts in the camps on the right bank are more substantially built, having mud walls and pot tiled roofs. Those on the left bank are built of more inflamable material having bamboo tatties for walls and grass thatched roofs. It is this camp that requires more attention as the thatched huts are likely to catch fire more easily.

It is not possible to have any elaborate fire protection arrangements for these temporary camps, as the time required for erecting any such arrangements would be considerable nor is it necessary that any such arrangements should be made for camps of such a temporary nature. All that is necessary in my opinion is, to take precautions in case of fire, to prevent it from spreading from one hut to another and so on to the whole

camp. If a fire occurs at any spot in the camp, it should be nipped in the bud. With this in view I am of opinion that the arrangements should be as simple and as effective as possible. I would suggest that zinc buckets filled with coloured water be kept between two rows of huts two at each end and two in the middle of the row. These buckets be always kept full ready for use at a moment's notice. In addition to these I would suggest that two/three-gallon Empire Chemical Fire Extinguishers be purchased from the British India Trading Company, Raja Mansions, Bombay. One of these will be kept in each of the two camps. These Extinguishers are cheap and effective. The cost of each being only Rs.£5/- I enclose a pamphlet dealing with these appliances for reference.

The Inspector-General of Police who was at Sringeri, when I was there, suggested that the small fire engine which is at the Police Head Quarters, Bangalore be sent to Sringeri and kept ready for use in the camp on the left bankof the river. The water required for the use of this fire engine may be stored in half a dozen casks placed at convenient places in the camp.

The Reserve Police are trained in the use of this Engine and should be able to give a good account of themselves should the necessity arise.

Inspector General of Police in Mysore,

No. 6208/749

Bangalore, Dated 7th May 191

From

Diwan Bahadur C. Srikantesvara Aiyar, B.A., B.L.,
Inspector General of Police in Mysore.

To

V. R. Thyagaraja Iyer Esquire, M.A.,
Secretary to the Government of His Highness
the Maharaja of Mysore, Revenue Department.

Sir,

With reference to your letter No.2600/Muz.564-15 dated the 4th instant, anent Police arrangements at Sringeri, I have the honor to forward herewith copy of my letter No.5966/725 dated the 25th April 1916 to Government, on the subject, and to state that 2 Inspectors, 1 Sub Inspector, 11 Jamedars, 20 Duffedars and 140 constables will be detailed for duty at the several camps, temples, etc. in the town of Sringeri, while 2 Inspectors, 9 Jamedars, 18 Duffedars and 150 constables will be told off for manning the several temporary Cokkads and for road beats, on all the roads to Sringeri.

I have the honor to be,
sir,
Your most obedient servant,

C. Srikantesvara

Inspector General of Police.

Bangalore
6th May 1916

Dear Aravamudan,

With reference to your letter dated yesterday anent the Fire Engine to Sringeri, I inspected the place and saw that the shed or. had been put up in the river bed quite in the open.

The fire engine in the Police office has some heavy parts, which do not admit of easy transport, especially over the malnad ghat road, 60 miles

long and it would not be
besides without a hydrant or a be
engine to lift water from the river.

I had a talk with Mr. Bhore
who showed me some samples
fire extinguishers, and I understoo
he would, in consultation with you,
order a couple of them, one which
I could retain in the Department
later on, the other being kept in
some other stores for eventual use

It seems to me we might ord
these small extinguishers.

Yours sincerely,

Sir Kanaiya Narayan
